DRY CLEANER ENVIRONMENTAL RESPONSE FUND (DERF) BROADCAST

The Wisconsin Fabricare Institute (WFI) is sponsoring free local seminars for dry cleaners and others interested in "Utilizing the DERF Program - questions and answers". This radio broadcast using UW Extension's ETN Radio Network will be held at seven locations around the state on Thursday, February 17th from 3:00 pm - 5:00 pm. Leslie Gauberti and Robin Schmidt of DNR, and Jeanne Tarvin of STS, will be in Milwaukee providing an overview of the DERF program and answering questions. Jeanne is the consultant representative on the Governor's DERF Council. WFI has also arranged for a consultant to be at each location to answer any questions after the session is over. The locations are as follows:

- Fond du Lac (UW, 400 Campus Drive, classroom building, room 112)
- Green Bay (Brown Co Ag & Extension Center, 1150 Bellevue Street)
- La Crosse (LaCrosse County UW Extension Office, 300 N. 4th Street)
- Milwaukee (Milwaukee County Extension, 640 84th Street)
- Stevens Point (UW Stevens Point Communication Arts Building, 2100 Main Street)
- Superior (Douglas Co Courthouse, 1313 Belknap Street)
- Madison (Pyle Center, 702 Langdon Street)

To register, contact the Wisconsin Fabricare Institute at (414) 529-4707.

IT'S ON THE WEB

- ON LINE NATURAL ATTENUATION TRAINING

In November DNR's Terry Evanson presented training to DNR staff on natural attenuation. Her presentations are available on our web site at <http://www.dnr.state.wi.us/org/aw/rr/technical/NA/index.html>

- LISTS OF WASTE SITES AND CONTAMINATED SITES

A new RR program publication, "Lists of Waste Sites and Contaminated Sites", RR-644, is available on the web. This overview tells users how to find information about disposal sites such as active and inactive landfills; licensed and unlicensed landfills and one-time disposal sites. It also includes information on disposal areas for regulated wastes that were historically perceived as nuisances, such as: demolition debris sites; old burn pits; deer pits and brush piles.

This publication is at:

<http://www.dnr.state.wi.us/org/aw/rr/archives/pubs/RR644.pdf>

- ANNUAL REPORT

The RR program's annual report for state fiscal year 1998-99 is on the web. The report summarizes program accomplishments in state funded cleanups, spill response, brownfield redevelopment, developing the dry cleaner reimbursement program, Superfund and public outreach. Success stories are included to illustrate how these programs function. The report is available on the web at

<http://www.dnr.state.wi.us/org/aw/rr/archives/pubs/RR640.pdf>

We do NOT recommend downloading this publication because of the time required to print its graphics. If you'd like a copy, please call 608-264-6020 (or 1-800-367-6076 for long distance calls originating in Wisconsin) and ask for publication RR-640. - IMPROVED WEB SITE MAP

Our web guru has created a new RR program web site map. You can now find our publications listed numerically by publication number. Following the numeric list, you'll find categories of information, with an alphabetical list of publication titles in each category. Both the

numeric and the alphabetical map provide direct links to the information. You can link to the new map form our General Information page, or go to:

FIELD ANALYTIC TECHNOLOGIES ENCYCLOPEDIA (FATE).

The U.S. EPA Technology Innovation Office, in collaboration with the U.S. Army Corps of Engineers, has developed a new online encyclopedia of field analytic technologies. This encyclopedia is intended to provide information about field technologies that can characterize contaminated soil and groundwater and monitor the progress of remedial efforts. The encyclopedia is being initially posted with information on ten types of technologies. EPA plans to add additional types of field analytical technology with time. The encyclopedia is at <http://fate.clu-in.org>
